Abstracts of Title to all lands in the County of San Mateo

THOUSANDS VISIT LAND SHOW ON SAN MATEO COUNTY DAY

The varied displays in the county exhibit at the land show were awarded twelve gold medals. It was the originality of the exhibit which earned these prizes and met with the high regard of the judges.

San Mateo County Day, which was Portola Day, brought forth the record daily attendance of 39,000 people at the land show.

This county was given Statewide publicity during the two weeks of the show. A signal triumph was achieved on San Mateo County Day through a special musical program, mixed with oratory. On account of the Peninsula World's Fair Band, consisting of fifty pieces, and the fact that this was the only county to put on a musical program, the officials of the show printed and circulated 5000 programs, advertising the musical features of the county.

After Alois Winkler's band had completed half of its program, W. J. Martin of South San Francisco and Samuel Shortridge of Menlo Park spoke from the bandstand on the beauties of this county.

Shortridge, who is a noted lawyer and orator said: "As a farmer of San Mateo county, I can say that we have the best soil in California. For beauty, fertility and accessibility, San Mateo county is unexcelled. We have everything that goes to make a prosperous and happy people."

While the Peninsula band continued playing, an informal reception was given to visitors from this county by the officials of the show. Refreshments were served, followed by speechmaking.

William B. Pringle of San Mateo was toastmaster. He warmly praised the county's representation at the show.

President H. C. Tuchsen of the San Mateo County Development Association; Supervisor Jas. T. Casey of Colma; D. G. Doubleday of Millbrae and Frank L. Eksward, secretary of the association, were among those who made brief talks.

PLAY-GROUND INSTRUCTOR WILL SUPERVISE CHILDREN.

The Park Commission, in whose hands the playground work was placed, has been very fortunate in securing the services of Miss Florence Burrell, who will be at the grammar school playgrounds next Saturday at 9 o'clock to begin her duties as supervisor. Miss Burrell has had a wide experience in this work, both in Los Angeles and San Francisco, and at present is in charge of the playground work at Stanford University. She is expert in all games, new as well as old. The grounds will be open on Saturday from 9 to 5, and on Sundays from 1 to 5.

Miss Burrell will be pleased to give instruction to any young lady who is interested and cares to take up this line of work.

INVESTOR BUILDING THREE HOMES IN HIGHLANDS.

Ross Riley is erecting three pretty bungalows in Redwood Highlands on Fulton street near Hopkins avenue. These houses will each contain six rooms, bath, kitchen and screened sleeping room, with hardwood floors throughout. In giving his reasons for selecting this part of Redwood for his investment Mr. Riley said: "I have selected Redwood Highlands because of its beauty as a home site and because of the great natural advantages that Redwood City has, its contemplated harbor being not the least of those inducements. Your city is modern in every way and its climate cannot be beaten in California. My new buildings will each cost $4000."

LOCAL NEWS NOTES.

Ah Fong, a Chinaman, arrested in a raid on the Visitacion gambling house October 22d, pleaded guilty in Judge Lampkin's court, Tuesday, and was fined $100. The fine was paid and Ah Fong departed wiser and poorer.

R. C. Bragg, who has been superintendent of electrical distribution of the Pacific Gas and Electric Company in this district, has been promoted to the San Francisco division. L. G. Owens has been appointed to fill the vacancy caused by the change.

Treasurer P. P. Chamberlain has taken charge of his newly fitted office in the courthouse and will be found at his desk daily. The office has been neatly furnished by the supervisors. The first money paid over the new counter of the treasurer's new office was secured by District Attorney Swart.

Eugene Mourot, former owner of the steam laundry in this city, but who has been a resident of Los Angeles for the past two years, is here on a visit. In the southern city Mr. Mourot has been living with his daughter, Mrs. F. A. Ferguson, whose husband is manager of a large commercial firm.

The sympathy of her many friends is extended to Mrs. H. W. Lampkin, who has received news of the death of her father, Scott H. Bray, which occurred in Kansas City, Missouri, Saturday last. Mr. Bray was born in Madison, Indiana, and at the time of his death, which was caused by heart trouble, was 70 years of age. He visited his daughter in this city seven years ago and made many friends during his stay.

DEVELOPMENT OF LOCAL HARBOR

WORK ON THE WATER FRONT WILL SOON BE UNDER WAY.

The Redwood City Harbor Company, owners of the water front east of this city, and promotors of a reclamation undertaking of great magnitude, will soon be in a position to begin its work. Perhaps within thirty days work on the water front will be under way. Many months have been spent in removing obstacles that have delayed the undertaking, and it is understood that nothing now remains but to begin operations.

For several weeks a force of men has been at work lowering the track on Chestnut street to conform with the grade established by the city trustees for oil macadam pavement.

The company is now receiving bids for the construction of an earth embankment connecting with Chestnut street and running through the property to deep water. On this embankment for its full length will be laid the continuation of the track. There will also be provided room for a good wagon road. When this work is completed the company will secure the services of an immense dredger and begin the work of excavating at the water front. A sufficient depth will be made to accommodate the largest coast steamers. The material taken from the creek bottom will be used in filling the land and building a levy around it.

The company is planning to spend many thousands of dollars in the work that it has outlined. When these improvements are completed the water front will assume a lively aspect as it is assured that a number of wealthy capitalists have spoken for sites there for the establishment of factories and other branches of industry.

CHORAL SOCIETY ORGANIZED FOR WINTER ENTERTAINMENT.

The Redwood City Choral society held an enthusiastic meeting in the parlors of the Congregational church last Tuesday evening, at which time Prof. Bartlett of Palo Alto addressed the meeting with the result that the society has determined to start the heavy work of the winter by putting on the "Pirates of Penzance," which will probably be staged sometime in January. This event will be preceeded by a concert with outside and local talent sometime before Christmas. The officers of the society earnestly ask those who have any talent to join and help make these productions successful. Those who wish to join will kindly sent their names to Morris S. Cooper, the secretary of the society.

As Charles Roberts, a laborer was going to work on the streets for the Ott Construction Company Tuesday morning, he stepped on a small rock and fell to the ground, breaking his right wrist. He was attended by Dr. J. L. Ross who set and bandaged the injured arm and he was taken to the Del Monte Hotel. Roberts came from San Francisco Monday and it was his first job n six weeks.

DEATH BRINGS END TO HAPPY WEDDED LIFE.

Mrs. May Vandre Allen, wife of Edward M. Allen, of this city, died at the Peninsula Hospital, Palo Alto, Monday, after an illness of several months. Mrs. Allen went to the hospital at Palo Alto a week ago for medical treatment, but the skill of the physicians was not able to relieve her, and she passed away with her husband and relatives at her bdside.

Mr. and Mrs. Allen were married October 18, 1911, and their short married life was a continuously happy one in their home here, where they also enjoyed the respect and esteem of their many friends, who now deeply sympathize with the bereaved family. Deceased was born in San Francisco thirty years ago, and leaves her parents and a sister and brother to mourn with her husband for her untimely decease.

The funeral took place yesterday from Mount Cormel church in this city, and the interment was in Holy Cross cemetery at Colma.

WATER EXPERT SAYS HE CAN FIND SUPPLY FOR FARM.

The past summer has caused the greatest scarcity of water ever experienced at the county farm. The spring from which the institution has received its supply has dried up and for months past the superintendent has had to have water hauled from San Mateo. Last year several attempts were made to secure a supply but all failed. A week ago Supervisors Brown, Casey and MacBain, visited the farm with a man named George June who claimed that he could tell by the appearances and contour of the land if water could be found. After giving the premises a thorough inspection, June states that he would guarantee to develop a supply of 10,000 gallons per day and if he failed he would not ask any pay for his work. He will give the board an estimate of the cost of such an undertaking and if his price is within reason he will no doubt be given a contract.

The trustees of the grammar school have purchased a phonograph and records for the school. The instrument, a Victor, is of the very latest design for school purposes. It has a full, sweet tone and can be heard distinctly through out the corridors. It is of much assistance in marching. Last week the school observed the hundredth anniversary of the great composer, Verdi, listening in rapt attention to selections from his operas.

SEARCH YOURSELF.

A grafter, or a person who would graft, believes everybody else a grafter. A liar believes nobody. So on down the line, our estimates and judgments of other people unconsciously come from and are a reflection of what is in us, down deep; possibly never consciously recognized by ourselves; but blazoned to the world in our ever-ready judgment of other people.

This great moral law should give us thoughtful pause, and incite us to a bit of strenuous self-analysis, when we are on the edge of proclaiming derogatory judgment against our fellows. We should hesitate to "give ourselves away" by our judgment of other; we should get busy digging out the roots of faults and evils within ourselves, the presence of which is evidenced by our readiness to suspect other people of similar faults and evils.

Self delusion is the common fault of humanity. No growth, no progress, no reformation, is possible for any man or woman, spiritual, mental or material, until that man or woman takes square stock of himself or herself.

Salvation comes from within, and its first vital stage is honest, fair, square, unblinking self-judgment, as merciless as the judgment we so readly accord other people's acts, thoughts, motives and impulses.

A Native's Opinion.

Gonzales Manisbog, a Filipino youth attending the local high school, writes the following article on Philippine independence. While we do not agree with him in what he says, yet we must admire his patriotism and ability. His argument is a good one. However we believe the Filippinos will not be fit to govern themselves for at least fifty years:

The Filipinos are capable enough to maintain a stable government and to conduct their own affairs, modeling that of the United States. The great majority of the people are highly educated; besides those who got their education under the Spanish administration, the Filipino youth have been endowed by Nature a gift of mental and intellectual culture, thanks to the good method and idea of the American people. A considerable educational progress of the Filipino youth during these fifteen years is noted in the history of their country, a true remembrance which never-to-be-forgotten. Besides the Spanish language which had been taught to the Filipinos, the English language came to rebind the nine million people, in thought, in idea, and in commercial interests. The Filipino people have now their common language which is the English tongue, blessing to the people of this great republic.

The Filipinos are ready to hold and support their own government. The vast and fertile soil of that triangular archipelago produces a great amount of wealth, such as many kinds of cereals, minerals, forestals, etc.

A national consciousness, patriotism, self-reliance, and love of self-independence grew in the hearts of the Filipinos. The incessant voice of the nine million people is crying toward the ears of the Americans, just the same as the Thirteen Original Colonies did when they were seeking for their independence from England in 1776.

The Filipinos are now able to govern themselves. In fact, the success of the Philippine Assembly whose all members are Filipinos, can not be denied to the American people and to the world. The Municipal as well as the Provincial government officers are all Filipinos exercising wisely and loyally their respective power and the laws that are made by the Philippine Legislature. The eyes of the American people and of the world are open to such successes; but alas! the Americans say: Wait a minute. Should they feel such eagerness in the innermost cavity of their hearts, they would have already given such complete liberation.

Strong navy is not necessary to the infant republic, and such is unreasonable prevention to the foundation of the Philippine Republic. Such as Switzerland, Belgium and other countries have no strong naval power, while they are independent countries Neuturalization law as well as natural law does not permit the seizure of the islands by any foreign power, because it had been already agreed upon the coming of the islands into the family of nation.

Should any greedy nation violate the neuturalization law and threaten the invasion of the country, the Filipinos can raise 100,000 standing army, or more than that of Napoleon Bonaparte with whom he entered Moscow, or else all the people oppose the progress of the invaders, like the people of Granada when the French troops entered for the second time in Spain.

The band recently organized among the students of the Halfmoon Bay high school gives promise of being a decided success. The members are taking much interest in the work and constant practice is being held, so far with good success.

With the approach of cold weather a hot water bag is a necessity. We have them in different sizes and qualities and all are guaranteed. A. D. Walsh Co., Pioneer Drug Store, 12 Broadway.

Special Program Tonight.

Another of those big week-end programs which have lately been a special feature at the Bell Theatre was shown last night and will be repeated this evening, giving five reels of particularly interesting pictures. Probably the most interesting feature of the program is the portrayal of an experience of most railway disasters which is seldom witnessed by its victms—the actual head-on collision of two monster locomotives and the resultant crash. The two reel feature of the program is a powerful military drama of the frontier. "Frazzled Finances," the comedy atraction of the program, is of itself worth he price of admission to anyone who enjoys a good laugh—and who is there that does not? For Sunday evening there will be an especiall instructive feature in a two reel production, forcefully dealing with the labor problem as it affects the labor conditions of the day and inculcating a strong moral lesson. Popular prices will prevail both for this evening and Sunday.

Individual Cups at One Cent

The Railroad Commission of the State of California recently made the following order which is of interest to the people of this county. It is hereby ordered that all passenger cars of steam railroads and interurban electric railroads in the State of California that constitute a train or part of a train whose schedule time between terminals exceeds one hour and thirty minutes, shall be so provided with sanitary individual drinking cups that passengers on said passenger cars may be able to purchase one or more cups at a price not to exceed one cent each, and the traveling public shall be so notified by means of a poster card notice placed in a conspicious place at or near the water tank in each passenger car.

Rally Day at Methodist Church.

Sunday morning "Rally Day" will be observed at the Methodist church. There will be an interesting and instructive program by the members of the Sunday school and a short talk about boys and girls of other countries. The service begins at 10 a. m. and takes the place of Sunday school and the 11 o'clock service. All members of the church and Sunday school are urged to be present, and the public is most cordially invited. The evening service will be at 7:30. All are welcome.

The members of the Woman's club have invitations out for their Hollowe'en card party and dance this Saturday evening. Admission is 50 cents. Any one wishing to attend can obtain an invitation from any club member upon request. Indications are that the hall will be taxed to its fullest capacity.

Miss Rose Baker who was for three years primary teacher in Pescadero, but now a member of the Mountain View department, visited friends here this week.

SAN BRUNO NOTES.

Last Sunday, the 12th birthday of Josephine Pene, brought together at her home several of her sewing-club mates, all bent on celebrating the day with proper tokens of appreciation. The afternoon was spent pleasantly in games and amusements. Icecream and cake was enjoyed by all. Those present were Helen Smith, Laura Leslie, Hortense Jenevein, Mary and Elanor Reid, Parenie Ricci and Amelia Cuturri.

The San Mateo Avenue ditch is being cleaned for the first time in two years. It is hoped that the delayed cleaning is an omen of rain and that water will soon flow through its course.

It was fortunate for a great many San Bruno people that the Portola parade was late in starting Friday, as the cars were so crowded that it was impossible to obtain standing room up to 10 o'clock. The same conditions existed Saturday evening. However, all who desired got off finally and arrived in time. The town was almost deserted during the two great parades.

With the population augmented by four regiments of infantry and cavalry comprising 1700 soldiers, the town put on a busy appearance for the past six days. The Sneath farm, opposite Tanforan track, on the Mission road, was the scene of field practice and encampment. Soldiers were everywhere, from Baden crossing to the high peaks overlooking the ocean. Striving for the honor arising from stratagem was the incentive of much activity. The commissary department purchased all supplies in town and distributed the patronage equally among oar tradespeople. Camp was broken Saturday morning and the long trains of wagons and men started for the Presidio.

County Tax-collector McSweeney and Assessor C. D. Hayward were in town Thursday collecting taxes and many taxpayers availed themselves of the opportunity to get square on the books.

The corner store on the new Kirk bride building at Burlingame has been leased to the Miller Drug Company and will be occupied by that firm about the 1st of December.

Strong restrictions are to be placed upon the granting of transfers of licenses to new purchasers of existing saloons, while in the future it will take a strong showing to secure a new license.

FROM THE COAST SIDE.

Mrs. Peter Quinlan of Halfmoon Bay suffered a severe loss last week in the destruction of a large barn by fire, which started in a quantity of hay stored in the barn. While volunteers among the citizens of the town lent every aid, they were unable to prevent the total destruction of the barn and its contents because of the lack of water and apparatus. The hay, which was stored in the barn, was the property of Mr. Bettencourt, whose loss was considerable, he having within a few days refused an offer of $14 per ton for the entire lot. It is estimated that the entire loss will not be less than $2500. One result of the fire is a strong renewal of the movement for the incorporation of the town of Halfmoon Bay.

Halfmoon Bay has been recently suffering from an epidemic of mumps. As a result of the illness of a number of children who have been attacked by the malady it was found necessary to close the grammar school for a time.

The equipment of the new manual training department of the Halfmoon Bay high school has arrived and been installed. Work on the new water system for the school has also been practically completed.

HIGH SCHOOL GRAD TELLS OF SIGHTS IN FAR EAST

Elmer L. La Dieu, who graduated from the local high school a year ago, and who is now in the Philippines with a Government surveying party, has written interesting descriptive letters about our island territory. His communications are very interesting, as they tell in full detail of the people and the islands. In writing to the Times-Gazette he says:

"I was out for a ride toward a barrio called Mabalacoat, and on the way there I passed a thirty acre jungle filled with white orchids. They were simply beautiful, being purewhite with the center tinged with a delicate yellow. The blooms had the sweetest scent I ever had the plasure of enjoying. I plucked a bunch and took this precious bouquet to my home, and placed it at the head of my bunk. Talk about Coryell's orchids at Atherton, why they simply weren't in it with these wild flowers here in the far away Philippines.

"The greatest trouble with this country is the lack of vegetables. All our potatoes, onions and turnips, and the like are shipped from the States, so you can guess we don't get many of them. Our principal article of food is sweet potatoes and Godknows I am getting tired of that diet.

"I suppose you think it is warm out in Redwood City, but it seems queer to me, for here it is now in the dead of winter, or rather I should say, the rainy season. There are but two seasons here, the dry and wet. You may imagine the contrast between landscapes in California and here. Here everything is green, while in California the farmers are now irrigating crops and flowers. This place, on a general scale, is much the same as the peninsula, that is the place I am now living in, Pampanga. It is surrrounded by the mountains much higher and more rugged than our Coast Range. In front is Mount Ariat rises all alone out of the ing you. The only difference between the two peaks is that Mount Ariad rises all alone out of the level plain, with no other mountains nearer than twenty miles away, while with Mount Diablo, it is surrounded by hills.

"The vegetation is altogether different. The mountains and plains here are covered with hemp palms which look so much like banana trees that you can scarcely tell the difference between them. Th plains are cultivated with sugar cane and rice, altogether this is a grand country, but I'd sooner be back in dear old California, enjoying its warm sunshine and the pelasant hospitality of its hospitable people."

The Japanese growers here every morning ship many thousands of the blooms to the city.

There were twenty-four young people present.

YOUTH ASKS $30,000 FOR LOSS OF HAND.

Suit for damages in the sum of $30,233.80 was instituted in San Jose against the Dudfield Lumber Company of Palo Alto Saturday by Edward Broun in behalf of John A. Bettencourt, aged 19, who was injured in an accident in the lumber company's mill in this county, November 6, 1912.

According to the story of the complainant, Bettencourt was but an inexperienced youth of 18 at the time of the accident and unacquainted with the danger of machinery in the plant. Under the direction of a man in charge of a machine known as a "sander," it is alleged he took a rag saturated in kerosene and started to remove pitch which had adhered to revolving cylinders. His right hand was caught in the machinery and the fingers ground to the bone and destroyed.

For ten weeks it is alleged Bettancourt carried his hand in a sling. It is shrivelled, mishapen, and bent and it is alleged that it will never be of any use throughout life.

BOYS' CLUB DEFEATED IN HARD-FOUGHT GAME.

With practically every man playing in a new position, owing to absence due to the celebration, the Boys' Club put up a brilliant fight against the Ellery Arms nine Sunday. It took the latter ten innings to defeat the Boys by a 7 to 4 score. With the score 4 to 0 in the ninth, the locals rallied and tied the score, but in the tenth, owing to unfamiliarity with their new positions, the locals permitted three runs to score.

Next Sunday the Hamilton Outlaws will be here. The last time they played they defeated the Boys' Club 14 to 5, but the locals intend to turn the tables this time. Be sure to take this fn as the Boys' Club will not play anymore after November 9th, and its about your last chance to see them in action.

The Foresters' band gave an enjoyable dance at Foresters' hall on Saturday night and a large number of young people were in attendance. The new hall of the Foresters is proving very popular and is already engaged for several dancing parties, which will be given through the winter months. The next dancing event to take place at the hall is the Native Sons' dance, November 8.

The boys of the highschool have made up four basket ball teams and are arranging to play a series of games during the next six or seven weeks. There is considerable interest manifested in this schedule and the boys are very eager to de nonstrate which has the best team. A dinner at Hotel Sequoia may have something to do with this interest.

Mrs. Albert Schoffield with her baby son of San Jose passed last week with her parents, Mr. and Mrs. George W. Lovie.

SEVERE BRONCHIAL COUGH

Doctors Feared Lung Trouble, Restored to Health by Vinol.

The medical profession does not believe that lung troubles are inherited, but a person may inherit a weakness or tendency to them.

Mrs. Kate Heckman, Springfield, Ohio, says: "A few years ago I was in a very bad run-down condition, and the physician told me I had consumption. I tried another physician, and he told me I had ulcers on my right lung. I quit the physicians and started on 'Vinol.' Today I am perfectly healthy, and that is why I recommend 'Vinol'."

Vinol soothes and heals the inflamed surfaces and allays the cough, Vinol creates an appetite, strengthens the digestive organs and gives the patient strength to throw off incipient pulmonary diseases.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help yor

Some remedies may obtain an apparent result quickly but the cause remains, sooner or later to break out again.

Witter Water goes to the very root of the evil. It takes time for diseases to grow and develop within you, and it takes time to remove them.

Witter Water removes causes. It works slowly but certainly. It is the least expensive of all remedies.
